EIGHT RESCUED FROM BOAT IN LAKE MICHIGAN

Four Boys and Four Girls Saved
From Ship After 13 Hours Drifting

Chicago, Oct. 10 (AP)—Four girls and four young men were rescued from the middle of Lake Michigan yesterday after drifting in a water-logged cabin cruiser whose leaking seams kept them in constant fear of sinking for 13 hours.

With an old coffee can they bailed the craft in relays, while a chilling fog settled round to blanket their hopes of rescue. Hungry and cold, some of them had seasickness added to the misery and suspense of the long hours their craft rode aimless-

ly upon the water, 25 miles off the Chicago shore. All available fuel was burned in futile fires. Portions of clothing were sacrificed to make banners to attract the attention of passing steamers.

The ominous alarm of a fog horn at one period filled them with the fear of being run down by a freighter; but the ship passed without seeing them.

The steamer Sheboygan, Kenosha, Wis., to Chicago, came up on them yesterday afternoon and brought them in safely to shore.

The girls were Barbara Eastlack, Marguerite Williams, Pauline Anderson and Jean Lynd; their companions Frank Davis, Jack Cooper, Edward Fayes and John Schroeder.

Parts of women and girls are to be taken by men and boys in Chicago movies.

Doctor at 83 Found People Preferred His Prescription

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs with pepsin.

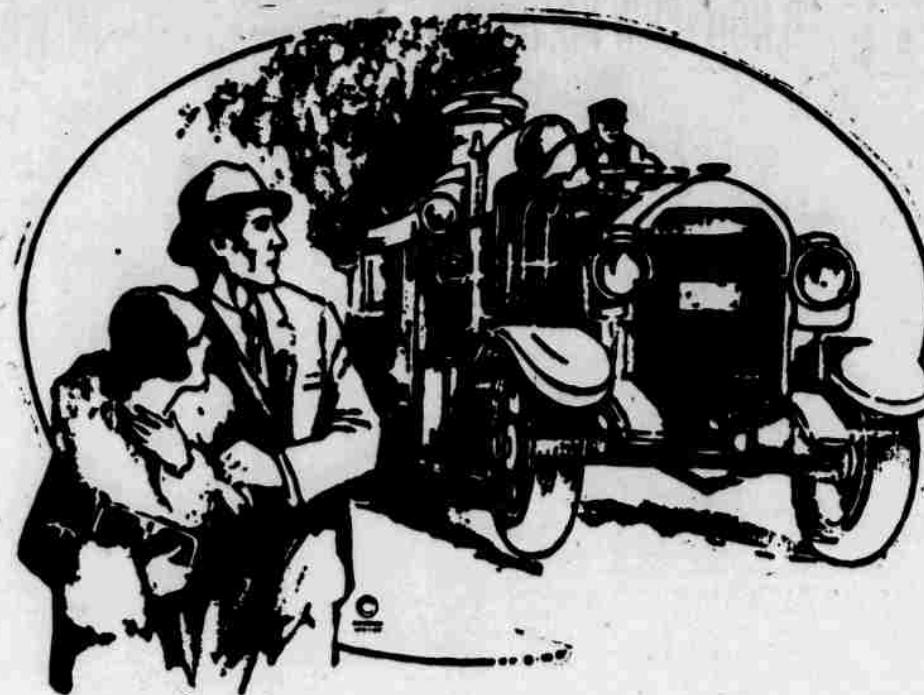

Dr. Caldwell did not approve of drastic physics and regimens. He did not believe they were good for human beings to put into their system. If grown people want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs? All drug stores have the generous bottles. Many is the family today that makes it a rule always to have a bottle of this perfect preparation in the house. Keep it handy and observe these three simple rules of health: keep the head cool, the feet warm, and the bowels open. We
